

Deserted Ancestral Axe

Version 1.00 (Januray 2023)

<https://www.dndbeyond.com/magic-items/6088907-deserted-ancestral-axe>

Weapon (battleaxe), uncommon

The hilt of this weapon seems to be rusted and old and void of its true self. The ax's head seems to have the same feeling of something missing. Even with something missing this magic weapon still holds some power of, what can only be assumed, as its past.

You have a +1 bonus to attack and damage rolls made with this magic weapon.

Proficiency with a battleaxe allows you to add your proficiency bonus to the attack roll for any attack you make with it.

Notes: Bonus: Magic, Damage: Radiant, Damage, Combat, Versatile
