SADDLEBAG

Wondrous Item, uncommon

Goodberry gummy fish are gooey sweets that look like Tiny, gelatinous fish. When found, they come in 15 gummies which are always red.

A *goodberry gummy fish* functions like a single berry from the *Goodberry* spell, except that eating a gummy also grants you a swimming speed of 30 feet for 1 hour.

Alternatively, you can use an action to submerge a gummy in water to magically animate it, using the quipper's statistics. If you submerge 5 or more gummies in water at the same time, they function as a group, using the swarm of quippers' statistics instead. The quippers are friendly to you, but aren't magically compelled to obey any of your commands. After 1 hour, the animated gummies dissolve and are destroyed.
