*Weapon (double-bladed scimitar), very rare*

This double-bladed scimitar glows with a deep orange color on the end of the blade and the other being a deep blue and the hilt being a deep meteorite-like purple. This seems to be created by an unknown plane that harnesses the strength of the sun and moon into the blades and uses shards of meteorite to keep the wielder from injuring themselves with the blades being severely hot or cold to the touch.

When using the **Special** action you can choose to also add a d4 of [Tooltip Not Found] or **Cold Damage** to the attack.

**Special.** If you attack with a double-bladed scimitar as part of the **Attack** action on your turn, you can use a bonus action immediately after to make a melee attack with it. This attack deals 1d4 slashing damage on a hit, instead of 2d4.

*Notes: Bonus: Magic, Damage: Cold, Damage: Fire, Special, Two-Handed*
