

Verronian Boots

Version 1.00 (July 2023)

Wondrous Item, uncommon

These boots are some of the Verronian soldiers that need the extra movement and are not trained well when working with allies that utilize web traps against their enemies.

Someone wearing the boots may cast *Spider Climb* on themselves, which lasts an hour and does not require concentration when cast in this way, as well as ignore any movement restrictions under web-like terrain.
