

Necrotic Fangs

Version 1.00 (January 2023)

<https://www.dndbeyond.com/magic-items/6092004-necrotic-fangs>

Weapon (dagger), uncommon

These weapons seem to be normal daggers without any magic inside if held one at a time. If both are held at the same time they both glow with some purple magical energy and seem to be more dangerous with the damage they can wield in a single strike. Every successful hit with these daggers, if held as two-handed, deals 1d4 of **Slashing Damage** and 1d4 of **Necrotic Damage**.

You have a +1 bonus to attack and damage rolls made with this magic weapon.

Proficiency with a dagger allows you to add your proficiency bonus to the attack roll for any attack you make with it.

Notes: Bonus: Magic, Damage: Necrotic, Damage, Combat, Finesse, Light, Thrown
