

Blue Web Teleportation Fluid

Version 1.00 (January 2023)

<https://www.dndbeyond.com/magic-items/5883232-blue-web-teleportation-fluid>

Potion, uncommon

This is a Verronian creation blessed by the magic of Lolth, which they created to make use of the spider webs all around the plane to make ease of transportation.

The potion is to be splashed onto a spider web and this version will teleport you to another spider web within a mile of the starting web that is on the same plane.
